RE: Comments - Proposed Rulemaking - Amendments to Gas Valuation
Regulations for Federal Leases, 60 Fed. Reg. 56007, et seq.

Dear Mr. Guzy:

Presidio Exploration, Inc. appreciates the opportunity to comment on this rulemaking. This company is an independent producer in the Rocky Mountain region and a member of the Independent Petroleum Association of Mountain States (IPAMS).

While some of the proposals will be helpful, overall we are concerned that the proposed rule will have a negative economic impact on our operations on federal land. We support the positive aspects of the proposal such as the elimination of processing and transportation allowance forms and dual accounting, a new definition of gathering, deduction of downstream compression and valuation of NGLs at a wellhead MMBtu basis.

While we recognize that the Negotiated Rulemaking Committee worked many hours to develop a valuation system which would benefit all parties, we believe the index system is far too complex for independent oil and gas operators to use. Although independents will be able to stay on the gross proceeds methodology, the complexity of the proposed valuation methodology in its entirety is contrary to the basic mission of the FACA Committee. Such a complex system, coupled with requiring producers to pay on entitlements, whether the producer takes or not, will most definitely discriminate against independents and have them at a competitive disadvantage with major corporations.

In summary, the proposed rule with respect to index pricing, the safety net and transportation allowances will increase our costs of operations and thus, increase our overhead.

We endorse the comments made by IPAMS and IPAA.

Sincerely,

PRESIDIO EXPLORATION, INC.

Stephen M. Bailey
Revenue Tax Coordinator
